

The 2nd Aussie VIRTUAL Nash Bash

Newsletter number 1 : January 2012

Thanks to the 118 Aussie and International bike hashers that participated, the First Aussie VIRTUAL Nash Bash was moderately successful. Therefore we have decided to continue the format for now as an annual virtual event until something better comes along.

The next Aussie Virtual Bike Nash Bash will take place on or around the last two weeks of October 2012.

You are invited once again to ride in your own towns and cities and count your own organised ride as the Virtual Nash hash ride. The Onsec of each club can email me a list of the participants and whether you require a commemorative patch or not. Once again Navy personnel and overseas bike hashers are welcome to participate.

The Cairns Bike Hash will arrange for anyone who wants one, a patch for the event (approx \$8)
